Re: Reference Letter

To Whom It May Concern:

I am writing this letter on behalf of Collins Construction. Jason Collins, Ron Benefield and team were excellent to deal with from initial proposal through final completion. They were extremely knowledgeable and fair in their approach to doing business. The quality of the work performed was excellent, on schedule and completed exactly as committed. Most recently, they completed the Dr. Phillips Office Headquarters in Orlando and did a fantastic job. Collins Construction went above and beyond to ensure the client was satisfied with the high-end finishes utilized in the construction. Collins Construction's employees are professional and conduct themselves and their business in a proficient manner.

Sincerely,
